

Travel Chatbot Documentation

Welcome to the **Travel Chatbot** documentation!

This guide explains how to use the chatbot, what features are available, and how you can get personalized trip recommendations.

Introduction

The Travel Chatbot helps you:

- Explore tourist places with detailed information.
- Get recommendations **season-wise, budget-wise, and time-wise**.
- Plan a trip based on your **budget** and **number of days available**.
- Chat in **multiple languages** (English, Hindi, Marathi).

Getting Started

How to Use

- Simply type your question in the chatbot.
- You can ask in natural language (e.g., *"Best places to visit in winter under ₹5000 budget?"*).
- The chatbot will respond with detailed suggestions.

Features

- **1. Place Information**
 - Ask the chatbot about any place:
- **2. Season-wise Recommendations**
 - Find the best places to visit based on the season:

3. Budget-wise Recommendations

Get suggestions based on your budget:

4. Best Time to Visit

Check the ideal time to visit a destination:

5. Custom Trip Planning

Generate a travel plan based on **budget + days available**:

6. Multi-Language Support

The chatbot responds in the language you ask:

- **English → English**
- **Marathi → Marathi**
- **Hindi → Hindi**

Example Use Cases

- **Students** planning budget-friendly trips.
- **Families** looking for season-wise destinations.
- **Solo travelers** checking best times for adventures.
- **Tourists** asking about famous attractions.
